• Archie continues to “carry the mail.” We now have several daughters in production and they are the kind the industry demands — efficient, maternal and carcassed. His sons and grandsons continue to make friends across the country everywhere they are turned out. He is the grandsire of Jordan’s steer and he, his sire and grandsire are all newly designated CHB sires. Selling will be a large volume of sons and daughters of one of the really great ones to ever cover cows.

• Buying a package on this record priced (\$280,000) young sire is one of the best genetic decisions we have made in our 106 years in the Hereford business. He currently is the #1 ranked REA sire. He ranks in the top 1% of the breed not only for REA, but also for WW, YW and CHB\$. In addition, he places in the top 5% for M&G for all sires. His calves are eye appealing, carcassed and explosive. This is quite possibly your largest offering of Rambos anywhere. Please consider plugging these outstanding genetics into your herd right now!

L3 PURE GOLD 2005 (ANDY)

2.6	39	63	22	41	-0.13	0.24	18	18	17	20

• Jack is by the great Genetic Explosion out of perhaps the best daughter of Desert Edge that we’ve ever had. He is one of those rare sires that works on both cows and heifers. His marbling ability is stacked and the udders on his females are outstanding. You will find numerous sons in the sale. He is a maternal/carcass sire that has few equals.

- Yet another Desert★Mart sire that ranks better than breed average in every category! Even though this may appear as rather commonplace in this catalog, it is very unusual for proven sires to reach these levels. G.O. is still active at 8 years and has several outstanding lots in the sale. He is a trait leader in REA, MARB and CHB\$. In addition, his sire is a trait leader in five traits. He is bred very similar to the popular L18, pictured to the right.

DESERT GOLD 1003

- “DG” is one of our older “mainstay” sires. His data is exceptional as he ranks in the top of the breed for milk and carcass. His daughters are very popular here on the ranch, consistently raising some of our very best calves. Be sure to study his offspring closely.

(2006-2007)								

While very few individuals have or should have superior EPDs in every trait, we think after inspecting the EPDs on this year's offering, you will agree that they are in a class of excellence all by themselves. The great aspect of this sale is that all the cattle have superiority in several key areas or they would not be in the sale!
